

Cyclone Phi Psi

A Publication of Iowa Beta Chapter of Phi Kappa Psi Fraternity

Iowa State University

316 Lynn Avenue, Ames, Iowa 50010

Spring 2005

Introducing Faculty Advisor Craig A. Anderson

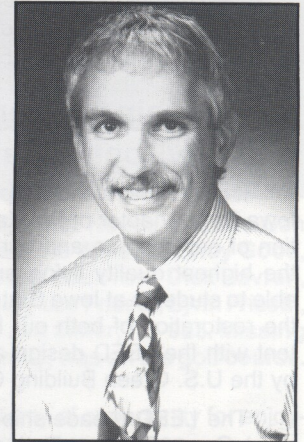

Our colony is fortunate to have as its faculty advisor brother Craig A. Anderson. Brother Anderson was initiated into Phi Psi in 1974 at Butler University, where he obtained his BA. He later obtained his MA and PhD degrees from Stanford.

Before coming to Iowa State, brother Anderson served on the faculties at Rice University and the University of Missouri-Columbia. He joined the Iowa State University faculty in 1999 as Professor and Chair of the Department of Psychology. In 2004, brother Anderson was presented the "Iowa State University Foundation Award for Outstanding Achievement in Research." In 2005, he was awarded the title "Distinguished Professor," the highest faculty honor given by Iowa State University.

A complete listing of brother Anderson's publications and teaching/research awards would more than consume this entire newsletter. You can learn more about Craig's academic achievements at <http://www.psychology.iastate.edu/faculty/caa/index.html>.

Craig has become a leading expert on the effect that violent video games and media violence have on human aggression.

His studies have been published in some of the world's leading science journals, and he has been quoted in newspapers around the world. He has testified before the US Senate Commerce, Science, and Transportation Committees and has appeared on National Public Radio, CNN News, NBC's Today Show, and the CBS Evening News with Dan Rather, to name just a few.

"Phi Psi was an important part of my undergraduate experience at Butler, and I'm delighted to see the Iowa Beta Chapter coming back at ISU. A quality chapter has to be built upon the proper foundation — and that includes emphasis on scholarship — and I am happy to offer whatever academic help I can provide to our Iowa Beta members."

Capital Campaign Update

The Campaign for the Rebirth of Iowa Beta was kicked off in April with the mailing of the Campaign Brochure. We are now in the process of making personal contacts with all brothers to encourage broad participation. This effort is being coordinated by the following Era Captains:

Brian Jameson, 1995-'98	Karl Ritland, 1990-'94
Mark Geronime, 1985-'89	Scott Wiggins, 1980-'84
Burns Davison, 1975-'79	Bob Wolter, 1970-'74
Bill Good, 1965-'69	Glenn Evans, 1960-'64
Bill McEniry, 1955-'59	George Rosenfeld, 1950-'54
Fred Bushnell, 1945-'49	Lynn Johnson, 1920s, 30s & early 40s

The Era Captains have recruited various Class Captains to assure that all brothers in their eras are contacted. The Class Captains will be recognized in a future issue.

More than one Class Captain has made the comment that it's a good thing that long-distance phone calls are no longer a luxury. After all, if you have 20-30 or more years to catch up on, it takes time! The fun of reconnecting with pledge brothers and other contemporaries has been a real treat.

Prior to kicking off the campaign, \$541,000 of advance commitments had been received from just 22 brothers. This campaign will be successful if each brother who cares about Phi Psi makes a meaningful commitment based on his particular circumstances. Momentum is on our side, but renovation will not start until pledges sufficient to cover the costs of the initial phase have been secured. We want to start work by early fall, so if you haven't made your pledge, become a part of the team and do so today!

— Bill Good, Capital Campaign Chairman

Iowa Beta Is on the Web!

An Iowa Beta website is now up and running and can be accessed at <http://www.stuorg.iastate.edu/phiPsi>. Many thanks to brother Jim Miller, '71, professor of computer science in the Department of Electrical Engineering and Computer Science at the University of Kansas, for providing the technical expertise and agreeing to serve as the initial "Web site tech advisor" to our undergraduates.

As you might expect, Web sites are an important tool in membership recruitment these days; much of the content is geared toward incoming students. But our goal is to eventually make it a useful tool for communicating with parents and alumni.

The site is fairly basic at this point, but we intend for it to grow and improve as time goes on. If anyone has any thoughts about content or design, please e-mail them to Jim at jrmiller@ku.edu.

LEED: "Green Building" Concept Attracts Interest of New Engineering and Design Students

Editor's Note:

Jim Patchett, '71, prepared this article for use by our summer rush chairmen, who report that it is, indeed, generating interest among incoming engineering and design students. A May 25, 2005, article in the Wall Street Journal reported that the green building concept is gaining wide acceptance, as many states (including Michigan, Washington, and Arizona) and cities (including Atlanta, Chicago, Los Angeles, San Francisco, and Seattle) now require government projects to follow LEED. In addition to the reasons stated in Jim's article for following LEED, the House Corporation is interested in the long-term operating cost savings inherent in a LEED-designed building.

Leadership in Energy and Environmental Design (LEED)

It is the goal of the Corporation Board and the alumni of the Iowa Beta Chapter of Phi Kappa Psi Fraternity that the restoration of our chapter, and our historical chapter house, provides the highest quality living and educational environment available to students at Iowa State University. With this goal in mind, the restoration of both our house and grounds will be consistent with the LEED design and construction criteria developed by the U.S. Green Building Council (USGBC).

The LEED (Leadership in Energy and Environmental Design) Green Building Rating System® is a voluntary, consensus-based national standard for developing high-performance, sustainable buildings. Members of the U.S. Green Building Council, representing all segments of the building industry developed LEED and continue to contribute to its evolution.

LEED was created to:

- define "green building" by establishing a common standard of measurement
- promote integrated, whole-building design practices
- recognize environmental leadership in the building industry
- stimulate green competition
- raise consumer awareness of green building benefits
- transform the building market

LEED provides a complete framework for assessing building and site performance and meeting sustainability goals. Based on well-founded scientific standards, LEED emphasizes state-of-the-art strategies for sustainable site development, water savings, energy efficiency, materials selection, and indoor environmental quality. LEED recognizes achievements and promotes expertise in green building through a comprehensive system offering project certification, professional accreditation, training, and practical resources.

Developed and introduced by the USGBC in 2000, LEED provides design guidance and a nationally standardized certification process that promotes the design, construction, and management of integrated green building and site development projects, either for new construction, or for the rehabilitation of existing structures and grounds. The LEED design and construction process promotes the development of the highest quality living and working environments exemplified by enhanced indoor air quality, increased energy efficiency, use of recycled or locally harvested renewable building resources, adaptive reuse of existing infrastructure, and state-of-the-art innovations in water resource management and landscape conservation.

The process of LEED certification in the restoration of our historic home will provide a quality living environment, as well as an outstanding opportunity for ongoing education and research for our undergraduate and graduate members. The building and grounds will provide opportunities for research and educational outreach in the professions of architecture, landscape architecture, interior design, business management and economics, and mechanical, electrical, civil, and construction engineering, to name a few. The Iowa Beta Chapter of Phi Kappa Psi will represent one, if not the first, of the LEED-certified Greek residential facilities in the United States, and as such, further exemplifies our commitment to the establishment of a fraternal living environment that promotes outstanding leadership and educational opportunities.

Iowa Betans Attend Cabo Alpha

In January, six Iowa Betans and spouses traveled to Cabo San Lucas, Mexico, as guests of brother Jerry Nelson, UCLA '48. Brother Nelson has been the driving force in the development of the Cabo Alpha Leadership Academy, which provides leadership training to undergraduate Phi Psis. Each year, every Phi Psi chapter in the country has the opportunity to send ten brothers to Cabo for a week of training. The only cost to the undergraduates is their airfare down. Housing in the Marbella Suites Hotel, all meals, and local transportation are provided without cost.

Those attending participate in workshops from 10 a.m. to 2 p.m., Monday through Friday. Workshop topics include those that are so essential for success in the workplace (and life in general), but which are not often addressed in today's college curricula: time management, negotiations, personal finances, attitudes of winners, running effective meetings, effective communication (public speaking), how to motivate people, manners, how to close sales, dressing for the work place, the job hunt, interviewing skills, networking, developing the individual man, and personal character. Topics also include subjects that are important for chapter success: membership recruitment, fraternity education, philanthropy, study skills, alcohol in America and the chapter, confrontation and conflict in the house, living the Creed, and establishing a positive relationship with the university.

Week in and week out, the participants are exposed to an outstanding faculty. Some of the speakers participating this winter included brother Don Fites, Valparaiso '53 (former chairman and CEO of Caterpillar, Inc., and current director of Exxon Mobil Corporation, Georgia-Pacific Corporation, AT&T Wireless Services, Inc., and many others), brother Scott Noble, Texas '81 (President and founder of Noble Royalties, Inc., a Dallas company specializing in oil and gas royalties), brother Jim Emison, DePauw, '49 (CEO and Chairman of Western Petroleum Company, and a founder, director, and principal shareholder of the Community Bank Group, a chair of rural Minnesota banks), brother Paul Wineman, Washington '55 (a former Green Beret officer who, in his 30 years of living in the Middle East, has experienced airplane hijackings and being held hostage, and who currently negotiates for and trains American corporations on how to negotiate successfully, both domestically and internationally), and, of course, brother Jerry Nelson, UCLA '48 (who has funded the creation and startup of many companies, including Ticketmaster, and has developed Pinnacle Peak Village, Country Club, and Shopping Plaza, Troon Village and Golf and Country Club, and other properties in Scottsdale, AZ).

For a more complete list of workshop topics and speakers, and more information about the program in general, go to www.caboalpha.com.

Of course, the week in Cabo is not all work and no play. The hotel housing the undergraduates is right on the Sea of

Sunday afternoon lunch at the Shrimp House in Cabo San Lucas. Front row, l-r: Laura Havran, Tia Watson, Lindy Good, Bill Good, '69-864, and Martha Miller. Back row: Dick Havran, '73-943, Jerry Nelson, UCLA '48, Mary Lee Friesth, Lynn Friesth, '69-874, Ron Lichty, '69-865, and Jim Miller, '71-925. Missing is Jim Watson, '70-882, who, naturally, was on the golf course.

Cortez, and the setting provides plenty of opportunity for enjoying the sun and fun of a world-famous resort area.

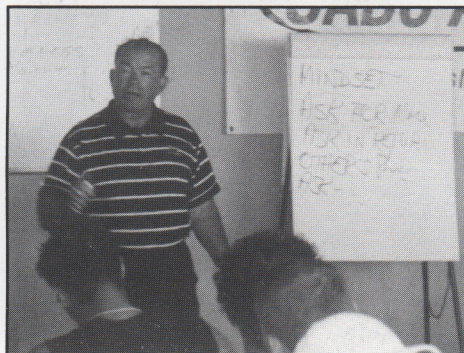

About 200 yards down the beach is brother Nelson's compound, which includes his personal residence and several guest houses. Recognizing that successful chapters need strong alumni involvement, Jerry has graciously opened his compound for alumni groups involved with capital campaigns, colony organizations, and similar endeavors.

A person has to experience Cabo Alpha to truly appreciate it. There is hardly a better way to get reenergized about the value and fun of fraternity membership. A case in point is our own group. Since returning home, Ron Lichty, '69, has renewed his Phi Psi connections in the San Francisco Bay area by attending a Founders Day celebration, Lynn Friesth, '69, has volunteered to serve on next year's faculty at Cabo Alpha, and Jim Miller, '71, has become the faculty advisor for the Phi Psi chapter at the University of Kansas.

No other fraternity has available to it the kind of training and experience found at Cabo Alpha. It is truly unique in the fraternity world. It is our hope that Iowa Beta's undergraduate and alumni involvement with Cabo Alpha has just begun!

With the Sea of Cortez in the background, Iowa Betans and spouses enjoy a "pool crawl" among the various infinity pools at the Nelson compound in Cabo.

Paul Wineman, U of WA '55, teaches a class on negotiations.

January 27, 2005: Wes Randell, Lynn Johnson, and Charles "Tuck" Foster had lunch together at The Village Tavern in Scottsdale, Arizona. Lynn and Tuck had not seen each other for 45 years.

February 25, 2005: Larry Swanson, Doug Borth, Tuck Foster, Alicia McEniry, and Bill McEniry, after lunch at Buster's on the Lake in Scottsdale. Bill was Doug's pledge dad.

Winter Reunions in Scottsdale

Lynn Johnson, '57-681, sent the photos on this page. He and his wife, Nancy, spent part of the winter in Scottsdale, Arizona, this year, and they got together with other Iowa Beta Phi Psis on three occasions to renew old friendships. Lynn wrote: "Swanee [Larry Swanson, '55-651], Tuck [Charles "Tuck" Foster, '55-656], and Doug [Borth, '57-678] live there, so we got together for lunches on three occasions. Wes [Randell, '55-643] lives in Des Moines and just happened to be in Scottsdale, and the same for the McEnirys [Bill, '55-652, and Alicia] who live in Ashton, Illinois. I had not seen Swanee, Tuck, or Doug in over 45 years, so it was great reminiscing with them. Bill was Doug's pledge dad, and they hadn't seen each other for many years."

February 8, 2005: Larry and Pat Swanson in Scottsdale.

Help Wanted for Colony Activities

For most fraternities at ISU, the total cost for live-in members is equal to or less than the total cost of living in the dorms. Most of our colony members will live in the dormitories this year because our chapter house will not be ready for occupancy until the fall of 2006. Their total cost this year will be greater than the dorms (and other fraternities) because their fraternity dues will be on top of what it costs to live in the dorms. For that reason, their dues this year need to be quite modest in order to stay competitive with other fraternities.

The problem with modest dues, of course, is that it doesn't give the colony much money to participate in the social and campus activities that make fraternity membership fun. And participation is important if the Phi Psi presence on campus is to continue growing.

A small example: The colony wants to have weekly barbecues from 5-7 p.m. on the front lawn with different sorority pledge classes. It takes very little time out of their schedule, no other fraternity does this, and what a great way to meet girls (you

might think today's students are different than your generation, but in many respects, they think just like you did when you were 18). And they want to give every girl who attends a tee-shirt that says something like "I love Phi Psi" (talk about a great way to get your name out on campus!). But while tee-shirts, ordered over the Internet, and hamburger and buns are not expensive, when you have so little money to work with, the cost of even simple functions like this becomes problematical.

While the capital campaign to renovate the chapter house is obviously our main priority, for those who remember the excitement and fun of the social aspects of fraternity life, please consider a donation in the \$25-\$100 range to be used strictly for colony social and campus activities. Send your donation today to Corporation Board Treasurer, Dave Moenk, 375 West First Street, Elmhurst, Illinois 60126. Make the check payable to "Iowa Beta of Phi Kappa Psi" and mark it for "colony activities" so it gets applied as intended. Let's show these young men that our alumni really do want them to succeed.

Help Us With Rush!

It is often said that 15 percent of incoming students will join a fraternity no matter what, 15 percent will never join a fraternity no matter what, and 70 percent just don't have enough knowledge about fraternities to make an informed decision.

Just because you don't live in or near Ames doesn't mean you can't help our colony with recruitment. (And you don't have to be 20 years old to make a favorable impression on an incoming student.) Take a moment to look around your community for good men heading for Iowa State. Tell our recruitment chairmen about them or contact them yourself to encourage them to consider the Greek system in general, and Phi Kappa Psi in particular.

It is possible to get through life without the benefit of a good fraternity experience, but why would any thinking person want to handicap himself in that way? Yes, a new student would probably be better off not joining a chapter that merely offered an average or mediocre experience. But our "new" Phi Kappa Psi gives young men of character the chance to get in on the ground floor and build and enjoy a truly great fraternity experience.

Our summer rush chairmen are Cory McAnelly, 563-940-2705, pkpcorym@yahoo.com, and Cory Cozad, 563-260-9039, corycozad@yahoo.com. If you would like, they can e-mail you a list of students from your community who plan to attend ISU this fall.

WANTED: E-Mail Addresses

I have e-mail addresses for about 150 Iowa Betans, but I want more! We want to occasionally send out news electronically as a supplement to the *Cyclone Phi Psi*. So if you have never received an e-mail message from me, please send me your e-mail address today. Thanks!

— Bill Good, '69

William.Good@JohnsonLawIA.com

Obituaries

Keith P. Crawford, '36-240, of Albert Lea, Minnesota, died April 3, 2004, at the age of 88. He earned a bachelor's degree in business at Iowa State and married Marguerite Halvorsen in 1938. After World War II, they lived in Clear Lake, Iowa, until 1955, when Keith and his business partner, Charles Shaffer, purchased the Credit Bureau of Mason City, Iowa. They managed the credit bureau for more than 20 years. Keith also had a long military career, in active duty with the Army Air Corps for four years and in the Reserves until 1976, when he retired with the rank of lieutenant colonel. He and Marguerite loved to travel. They took numerous trips to Europe, visited Alaska, and spent many winters in Florida. Keith loved to golf, fish, and hunt, and he rode a motorcycle well into his 70s. He was a longtime member of Holy Family Catholic Church and the Rotary Club. He is survived by his son, Larry Crawford; his daughter, Jane Klang; his adopted son, Ted Baker; two grandchildren; and one great-grandchild. Keith's wife, Marguerite, is deceased.

Donald M. Peaslee, Jr., '37-252, of Laurens, Iowa, passed away April 12, 1999, according to the family.

Donald R. Evans, '38-257, died April 5, 2003, according to the family. He resided in Omaha, Nebraska.

Laverne K. "Butch" Lewis, '41-322, of Clear Lake, Iowa, passed away in December 1999, according to the family.

James H. Pippert, '42-325, of Gladbrook, Iowa, died October 8, 2002. Thanks to **Lynn Johnson, '57-681**, for informing the alumni office.

Keith A. Hinrichsen, '43-367, died December 7, 2003, according to the family. He had resided in Cottonwood, Arizona.

Stanley H. Campbell, '50-519, of Rockford, Illinois, died March 14, 2005, at age 74. He was self-employed in the sale of janitorial supplies. Stan was drafted into the NFL in 1951 and played football for 11 years, playing in three world championship games. His number was 67 on the Philadelphia, Detroit, and Oakland teams. He coached the Rockford Rams and Junior Tackle football. Stan was a US Army veteran, and he loved skiing and fishing. His family includes four sons, Jeff, Doug, Scott, and Chris; 10 grandchildren; a brother; four sisters; and several nieces and nephews. Thanks to **Bill McEniry, '55-652**, for informing the alumni office of Stan's passing.

Royce M. Donohoe, '54-628, died July 16, 1999, according to his family. Royce moved to Chicago after graduation from Iowa State University, where he worked as a financial manager at US Steel. He retired from US Steel in 1986 and relocated to Tempe, Arizona. Royce is survived by his wife, Elaine; four daughters, Debra, Kathryn, Jennifer, and Cynthia, and their mother, Teresa; two granddaughters; a brother, Patrick; and a sister, Catherine.

Thomas P. Chleboun, '56-675, of Santa Clara, California, died November 27, 1998, according to the family.

Jonathan R. Grosjean, '93-1284, of Muscatine, Iowa, was killed in a hunting accident November 15, 2001. His father, Leo Grosjean, informed the alumni office.

Cyclo-grams

James F. McKillen, '35-235, retired from B.F. Goodrich. He is a member of the Masons, Scottish Rite, the Shriners, Alta Vista Country Club, and Indian Palms Country Club. "Mac" enjoys golf, fishing, and reading. "I have five grandchildren, two great-grandchildren, and one on the way," he writes. Mac's wife, Ruth, is deceased. The couple raised three children: Marti (deceased), Micki (60), and Linda (57). Contact Mac at 82-241 Odium Dr., Indio, CA 92201, or 760-342-3314.

Theodore L. Johnston, '40-300, a retired ophthalmologist, enjoys numerous musical and theater activities. He sings with a group called the Capital Chorale and with his Presbyterian church choir. He also plays in the church bell choir, plays the organ, and participates in the symphony and Little Theatre. Ted's wife, Barbara, passed away in 2002. He has two sons and a daughter — Randolph (51), Patricia (47), and Scott (45) — all of whom are medical doctors. To the question, "What's new with you?" Ted responded: "Much traveling, in and out of the US. I live alone, except for two Yorkshire terriers, in a large condo." He can be reached at 6201 Deer Ave., Cheyenne, WY 82009; 307-638-3498; tjohnsto@wyoming.com.

Richard M. Whiteside, '52-572, reports that he is "retired and loving it." He was a director of engineering in oil transportation (US) with Sohio-BP. Now he works with volunteer organizations, such as United Way, and he is involved in his church. "Whitey" and his wife, Noel (Hunter College), raised three sons and a daughter. Contact him at 20001 Westhaven Lane, Rocky River, OH 44116; 440-331-3262; white4@cox.net.

Kenneth H. Knop, '53-605, is an attorney. "Can't seem to hang up my gloves," he comments, "but since I still enjoy practicing law, will continue for a few more rounds." He and his wife, Virginia, live at 1322 Glourie Dr., Houston, TX 77055, and their phone number is 713-467-3824. The family includes Todd (45), Kim Wilson (43), Mark (41), and Chris (25). Ken adds, "Happy to see Iowa Beta returning from oblivion!" Send e-mail to him at kknop@prodigy.net.

David L. Anthony, '54-627, and his wife, Myra, live at 15877 Cedar Ridge Ct., Granger, IN 46530. Dave reports: "Dave Anthony, **John Jensen ['54-615]**, **Bob Dillingham ['54-619]**, and **Cliff Vance ['54-616]** got together at **Bill Lomax's ['54-629]** house in Galesburg, Illinois, last September to renew old times. We have been doing this for the past five years. This summer, Bob and Judy Dillingham will host our get-together." Dave's e-mail address is antho@torrington.com.

Joseph Bryant, Jr., '58-693, is a certified private banking and investment specialist and former vice president and senior trust officer of City National Bank in Culver City, California. He recently launched a new business as a professional fiduciary for trusts and estates. Joe often serves as an expert witness for trust matters, and acts as a fundraising consultant, providing gift planning for charitable organizations. He and his wife, Sheila, live at 4183 Keystone Ave., Culver City, CA 90232.

Ronald D. Ratliff, '61-740, is a banker and a farmer. He is an Ohio Top Farmer, involved in corn and soybean state and national organizations and Rotary. Ronald and his wife, Nancy (Ohio U.), enjoy world traveling. They have a son, Lamar (36), and two daughters, Mollie (32) and Jill (30). Send mail to 3057 Lyndon Rd., Greenfield, OH 45123, or call 937-981-2072.

Donald M. Terkanian, '66-827, writes: "Both our children were married in 2004, our daughter in August and our son in October. Our son also had his Change of Command Ceremony on the Coast Guard cutter 'Man o' War' out of Galveston, Texas, in July 2004. He is a lieutenant in the US Coast Guard, stationed in Boston, Command Center District I. Our daughter, a special education teacher, is expecting our first grandchild this summer. Got together with brothers **Doug Carlson ['65-809]** and **George Dimitri ['67-834]** for a Cubs game back in May of 2004. Also visited with **Gordon ['64-789]** and **Kathy Dierks** at their home in Flagstaff, Arizona, in January 2005." "Duke" has been president of Dynamic Marketing & Technology, Inc., for the past 12 years. He and his wife, Susan (Wyndham School), have a son, Donald, Jr. (27), and a daughter, Jennifer (24). Under Clubs & Special Interests, Duke lists: "Watch Hill Yacht Club, Westerly Yacht Club, Institute of Food Technology, YMCA, Elks, Calabrese Society, sailing, power boating, rowing machine, golf, and chilling out. Open invitation to anyone in the area who would like to go sailing out of Watch Hill, Rhode Island, on a Catalina 36. Please give me a call at 800-362-6381." His mailing address is 19 Rose Ridge Ct., Pawcatuck, CT 06379, and his e-mail address is dmtinc@aol.com.

Jack L. Block, '74-975, writes: "I am single. I like to jet ski, bicycle, golf, hike, snowshoe, fly, travel, and be outdoors whenever possible. I am excited to hear that the ΦΨ house is up and

hope Moms Adams and Alice the cook return to their positions! I would like to locate members in my pledge class and brothers from 1971 through 1978. I will be in Ames in July 2005!" Jack is in sales with Shamrock Foods. Contact him at 19649 E. 58th Pl., Aurora, CO 80019, or jack_block@shamrockfoods.com.

Michael J. Gilhooly, '78-1046, is a vice president with J.P. Morgan Chase. He has two sons, Mike (19) and Matt (15). "Gooch" reports: "I've been a single parent for five years now. I have one off to Illinois Wesleyan University and another headed to Notre Dame in two more years. Would love to hear from other Chicagoland Iowa Beta alums." Contact him at 552 Ascot Ct., Lake Zurich, IL 60047; 847-726-7725; goochsr@aol.com.

Scott M. Pfeifer, '79-1074, and his wife, Ann Marie (Roosevelt Univ.), have two children, Michael (14) and Julia (11). Scott, who has been vice president with Masterpiece International for 10 years, was named Businessman of the Year in Illinois by the National Republican Committee. He says he is very active in his church. "I have enjoyed traveling the world over many years. Spent some quality time boating with brother **Lee Moore ['79-1066]** at our place in Delavan, Wisconsin, this summer and just recently skiing at his place in Waterville Valley, New Hampshire. Visited Ames for Homecoming '04." Scott can be reached at 137 Grace Lane, Barrington, IL 60010; 847-381-3897; amp071661@aol.com.

Thomas G. Correll, '82-1116, writes: "I stay busy with family activities and with work. I find some time for golf, skiing, etc. After a number of years in environmental consulting, I went to Northern Natural Gas after they were moved back to Omaha with the purchase by Mid American Energy." He and his wife, Ann (U of NE-Kearney), have three children, Abbey (16), Jacob (15), and Alanna (3). Tom is active in the Omaha Rotary Club. Contact him at 2505 N. 155th St., Omaha, NE 68116; 402-492-9917; thomas.correll@nngco.com.

Jay V. Petty, '84-1165, writes: "I always enjoy encounters with the brothers from the good old days. Much has changed with the family, starting four years ago. Look me up if you are ever in southern California." Jay is a member services officer with CUNA Mutual Group, specializing in key accounts and new sales. He and his wife, Susan, have two children, Alexis (4) and Austin (nine months). The family lives at 7040 Nighthawk Ct., Carlsbad, CA 92009, and their phone number is 760-431-2874. Send e-mail to jay.petty@cunamutual.com.

Matthew R. Brown, '90-1241, is a project manager with Wells Fargo Home Mortgage. He and his wife, Nancy, have two children, Aaron (4) and Colin (2). They live at 5909 NW 98th St., Johnston, IA 50131; 515-986-0777; mbrownarch@yahoo.com.

2005 Honor Roll of Contributors

Thank-you, Phi Psis! As of June 13, 47 of you have contributed \$2,870 via the 2005 alumni communications program. Your support is greatly appreciated, so please join your brothers on the list below by sending your gift today!

Name	Init. Yr. & No.						
James F. McKillen	35 235	R. Milton Lynnes, Jr.	54	612	Michael J. Gilhooly, Sr.	78	1046
